About the event

Are Asia's Pension Funds and other asset owners ready for Climate Change? As we head for a 3°C world with serious and severe impacts on water resources, a recently published report by China Water Risk (CWR), Manulife Investment Management (Manulife) and the Asia Investor Group on Climate Change (AIGCC) outlines imminent threats to asset owners' portfolios from climate and water risks.

We would like to invite you to attend a seminar on these climate and water risks. This event is organized by the Hong Kong Green Finance Association (HKGFA) in partnership with the Asia Investor Group on Climate Change (AIGCC), with the venue kindly sponsored by the LGT Group. The seminar will explore:

- How Climate and Water risk impact Asia pension funds and other asset owners
- How to better navigate this new risk – deep dive into key risks
- Recommendation on how to safeguard portfolios
